A great show. Much better than other shows we've been to. Being here is a big investment for us, but we've had more leads here than any other event.

What we like about Best Practice is that you are actually meeting customers that otherwise you wouldn't have access to.
Roz Larkin, Brand Executive, GSK

We've already booked a stand for next year, which is something we never do at shows.

This is the best event we've ever done. It's very focused and our key audience of doctors and practice managers are here.
Richard Black, Director, CharterPoint

We haven't stopped, it's been so busy. We've had at least 25 quality leads just from the morning and tripled the size of our stand to host more conversations.
